

No Child Left Inside

A learning experience for a lifetime of memories

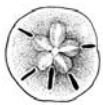

Terra Marine Research & Education, (TMRE), was incorporated in 1986 to conduct research and education in the marine sciences and related fields. TMRE seeks funding and provides logistical support for groups and individuals engaged in projects designed to further our understanding of marine, island, and coastal ecosystems, as well as projects designed to minimize impact and enhance responsible utilization of natural resources.

No Child Left Inside is an environmental education program developed with one of our partners, Island Packers, an authorized concessionaire to the Channel Islands National Park. The goal of this program is to provide funding to select schools that are unable to afford field trips that serve to enrich student learning with first-hand experiences. The program focuses on marine and island ecosystems within the Channel Islands national Park and the Channel Islands National Marine Sanctuary, and addresses the California Department of Education Science Standards.

You can help by sponsoring a classroom of enthusiastic students for an excursion to the Channel Islands National Park and the Channel Islands National Marine Sanctuary. Your sponsorship will provide an opportunity for hands-on exploration that can lead to an appreciation and future stewardship of our fragile oceans, and island ecosystems.

The following levels of sponsorship are tax-deductable, please chose your level of support by selecting one of the excursions listed below, a full description of each field trip can be found at www.islandpackers.com Please mail your check and a copy of this form to:

Terra Marine Research and Education
665 Tabor Lane
Santa Barbara, CA 93108

Gray Whale Watching Excursion
 \$650.00

Wildlife Watch Excursion
